Bev Naim welcomed everyone to the first PAC meeting.

1. Mr. Leever spoke about problem receiving emails and encouraged parents to come to the office and update their email address.

2. Mr. Leever explained Traffic patterns. We have to have free flow traffic and therefore we opened gate 11. It will not be a gate to enter but only for pick up. The goal is to push Mid and High school traffic to gate 11. There will be a message at what time parents can use gate 11. Mr. Leever answered questions about using gates and parking spots.

3. Laptop program. The goal tonight is to make our students be responsible and careful with laptops just as they had to be with the egg.

4. Bev reminded parents that there is an option to send an email to her if they want to put something on agenda or if they have new ideas.

4. New grading system –The goal – school giving students the access to information. Mr. Leever explained the difference between traditional and standards-based grading system. The primary goal is proficiency also an opportunity to move beyond where they are. Children should be motivated by what they learn not by grade they get. Much deeper explanation of grading system will take place on October 5th.
